SUMMARY

CSE graduate (MAIT, 2026) with software engineering and applied AI experience - LLM applications, RAG pipelines, and backend services in Python/FastAPI. 616+ LeetCode problems solved across Arrays, DP, Graphs, and Trees. Combines the discipline of a national-level athlete with hands-on experience shipping production-facing data and AI pipelines across two internships.

SKILLS

Languages: Python, SQL, JavaScript, HTML, CSS

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Backend & Systems: FastAPI, REST APIs, Streamlit, Model Context Protocol (MCP), MySQL, PostgreSQL, Docker, Git, Microservices Architecture

AI / ML / LLMs: LangChain, LangGraph, Hugging Face, Ollama, Claude API, Gemini API, OpenAI API, LLaMA-3, RAG Pipelines, FAISS, Vector Databases, TensorFlow, Keras, Scikit-learn, NLTK, OpenCV, Prompt Engineering, ReAct Agents

Tools: Jupyter, VS Code, Tableau, Power BI, Pandas, NumPy

INTERNSHIPS

Data and AI Intern — Ethara.ai — Remote

Feb 2026 – May 2026

- Engineered an automated Python application and scalable Pandas/NumPy data pipeline for geospatial mapping, eliminating manual evaluations and reducing data processing time by over 80%.
- Deployed an interactive Streamlit microservice for real-time statistical analysis, paired with automated PDF compliance reporting (Matplotlib, FPDF2), increasing reporting efficiency by 3x.

Environment: Python, Pandas, NumPy, Streamlit, Matplotlib, FPDF2, Geospatial Analysis, Data Pipelines

Data Science Intern — Tamizhan Skills RISE — Remote

Jun 2025 – Jul 2025

- Architected and deployed 8 end-to-end predictive modeling pipelines across multiple sectors using Python, Pandas, and Scikit-learn, achieving 90%+ average model accuracy.
- Built an interactive academic analytics dashboard to visualize KPIs, accelerating data-driven decisions on complex datasets.

Environment: Python, Pandas, Scikit-learn, Predictive Modeling, EDA, KPI Dashboards

PROJECTS

DocuChat - RAG-Powered Document Q&A

- Built a Retrieval-Augmented Generation pipeline with Hugging Face embeddings and a FAISS vector store for fast, high-accuracy semantic search over uploaded documents.
- Orchestrated multi-turn, context-aware document analysis using LangChain and the Gemini 2.5 Flash API.
- Deployed an interactive Streamlit frontend enabling real-time PDF upload and query.

Environment: RAG, FAISS, Hugging Face Embeddings, Gemini 2.5 Flash API, LangChain, Streamlit

AI Agent with MCP-Based Tool Integration

- Architected an autonomous AI agent using LangGraph and LangChain, integrating Model Context Protocol (MCP) servers for real-time external data retrieval.
- Built asynchronous execution workflows with AsyncIO for non-blocking task automation.

Environment: LangGraph, LangChain, Gemini API, MCP, AsyncIO, Secure API Authentication

EDUCATION

Maharaja Agrasen Institute of Technology
B.Tech, Computer Science & Engineering

2022 – 2026
CGPA: 8.15

Darshan Academy Public School
XII – CBSE (92%) , X – CBSE (92.4%)

2020 – 2022

CERTIFICATIONS

- Oracle Analytics Cloud 2025 Professional - cloud data visualization, ML model deployment, and data modeling.
- Oracle Cloud Infrastructure 2025 AI Associate - OCI AI/ML portfolio, Generative AI, and LLM infrastructure.
- Machine Learning Specialization (Coursera, Andrew Ng) - supervised/unsupervised learning and neural networks.

ACHIEVEMENTS

- National-level athlete - brings competitive discipline, time management, and consistency under pressure to technical work.
- 616+ problems solved on LeetCode across Arrays, Dynamic Programming, Graphs, Trees, and Strings.
